

MULTI TROLLEY STANDARD 6.0

Move it Smart and Simple

Multi Trolley

Smart • Simple • Safe

Patent protected

Innovate

Multi Trolley is an innovation. Rather than heavy lifting and carrying, simply mount the trolley onto the item instead. This easy method is both unique and patent-protected.

- The Multi Trolley can be mounted onto all sorts of items inc. large conference tables.

Simplify

Multi Trolley simplifies the job at hand. One person with a Multi Trolley does the work of two people. This means faster and more cost-effective handling when moving heavy and awkward furniture.

- Simply tilt the table until the trolley rests back onto its wheels.

Improve

Multi Trolley improves your working environment. Its ergonomic technique reduces the risk of injuries and fully complies with EEC manual handling requirements (90/269/EEC).

- Move furniture easily and safely through the office

Because!

“Research shows that 4 out of 5 people suffer from back pain at some point in their lives. A job involving heavy lifting significantly increases the likelihood of back injury. Multi Trolley’s unique and ergonomic working method, in the form of a trolley, saves both your back and your money.”
